

DAMIAN TABAKA

QA Automation Engineer | Frontend Developer

Poland | +48 603 422 133 | [LinkedIn](#) | [GitHub](#) | [Portfolio](#) | informatyka.tabaka1ti@gmail.com

PROFESSIONAL PROFILE

QA Automation Engineer with 4+ years of experience in testing and 5 years in frontend development (React/TypeScript), combining both to build reliable E2E test automation (Cypress, Playwright). Built over 1,000 tests across production monorepos, most of them using the Page Object Model pattern. Experienced in CI/CD pipelines (Azure DevOps, GitLab CI/CD), API testing (Postman), and reducing flaky tests at scale. Uniquely positioned to bridge development and quality - understands the codebase, not just the UI.

SKILLS

Core:

- Cypress, Playwright, TypeScript, JavaScript, React, Page Object Model, Manual Testing (functional, regression, exploratory), REST API Testing (Postman), CI/CD (Azure DevOps, GitLab CI/CD)

Additional:

- Next.js, Redux Toolkit, RTK Query, REST API Integration, Jira, Git, Docker, SQL, Vite, Node.js, TanStack Router/Query, Visual Regression Testing, ISTQB foundations (self-studied), AI-assisted development (GitHub Copilot, Claude)

UI / Styling:

- Tailwind CSS, MUI, Chakra UI, CSS Modules

SOFT SKILLS

- Collaboration
- Analytical problem-solving
- Attention to detail
- Ownership & accountability
- Fast adaptability to new situations and technologies
- Experience working in Scrum

EDUCATION

2017-2021

The Silesian University of Technology

- B.Eng. in ICT (Information and Communication Technology)

2021-2022

The Silesian University of Technology

- M.Sc. in Computer Science

LANGUAGES

- Polish (native)
- English B2
- German A1

EMPLOYMENT HISTORY

03/2026 – Present | Frontend Developer

Nubisoft (Project: KITA)

- Developed the React/TypeScript frontend using a modern component-driven architecture with Radix UI primitives, TanStack Router/Query, and AG Grid for data-heavy views.
- Performed manual testing of new features, verifying acceptance criteria, and tracked tasks and bugs in Jira.
- Analysed Docker container logs and investigated stack traces to diagnose and resolve issues.
- Tech: React, TypeScript, Vite, TanStack Router/Query, Radix UI, Tailwind CSS, React Hook Form + Zod, AG Grid, Jira, Docker

07/2024 – Present | E2E Tester

Nubisoft (Project: ID Berlin)

- Contributed to the ID Berlin project by developing and maintaining Cypress E2E tests. Improved E2E suite stability by refactoring to POM and reducing flaky tests. Approximately 600 test scripts have been written in the monorepo.
- Conducted manual exploratory, functional, and regression testing to identify edge cases and validate new features prior to automation.
- Identified, reproduced, and documented bugs in Jira, and designed test scenarios based on user stories written in Given/When/Then format.
- Tech: Cypress, TypeScript, React, Visual Regression Tracker, Jira, Azure DevOps/Azure Pipelines (CI/CD)

04/2022 – 03/2025 | Frontend Developer & E2E Tester

Nubisoft (Project: DataGenie)

- Implemented Cypress E2E tests for data-processing views alongside frontend development work.
- Performed manual, functional, and regression testing of chart visualisations and data flows before automation.
- Improved chart rendering performance, integrated with REST APIs, and tracked issues in Jira.
- Analysed Docker container logs and investigated stack traces to diagnose and resolve issues.
- Tech: React, TypeScript/Javascript, Redux Toolkit, REST APIs, Cypress, CSS Modules, react-konva, Docker, GitLab CI/CD, Node.js, Jira

07/2021 – 04/2022 | Junior Frontend Developer

Nubisoft (internal projects)

- Onboarding into the React/TypeScript ecosystem, supporting smaller frontend tasks and familiarising with team workflows and CI/CD tooling.
