

DAMIAN TABAKA

QA Automation Engineer | Frontend Developer

Poland | +48 603 422 133 | [LinkedIn](#) | [GitHub](#) | [Portfolio](#) | informatyka.tabaka1ti@gmail.com

PROFESSIONAL PROFILE

QA Automation Engineer with 4+ years of commercial experience combining frontend development (React/TypeScript) with E2E test automation (Cypress, Playwright). Built and maintained 500+ test scripts in a production monorepo using the Page Object Model pattern. Experienced in CI/CD pipelines (Azure DevOps, GitLab CI/CD), API testing (Postman), and reducing flaky tests at scale. Uniquely positioned to bridge development and quality - understands the codebase, not just the UI.

SKILLS

- Core: Cypress, Playwright, TypeScript, JavaScript, Page Object Model, Visual Regression Testing
- Additional: React, Next.js, Redux, RTK Query, REST APIs, Postman, Git, Docker, CI/CD (Azure DevOps, GitLab CI/CD), SQL, Vite, Node.js, TanStack Router/Query, AI-assisted development (GitHub Copilot, Claude)
- UI / Styling: Tailwind CSS, MUI, Chakra UI, CSS Modules

SOFT SKILLS

- Collaboration
- Analytical problem-solving
- Attention to detail
- Ownership & accountability

EDUCATION

2017-2021

The Silesian University of Technology

- B.Eng. in ICT
(Information and Communication Technology)

2021-2022

The Silesian University of Technology

- M.Sc. in Computer Science

LANGUAGES

- Polish (native)
- English B2
- German A1

EMPLOYMENT HISTORY

03/2026 - Present | Frontend Developer Nubisoft (Project: KITA)

- Worked on the Kita project by developing the React/TypeScript frontend using a modern component-driven architecture with Radix UI primitives, TanStack Router/Query, and AG Grid for data-heavy views. Performed manual testing of new features verifying acceptance criteria.
- Tech: React, TypeScript, Vite, TanStack Router/Query, Radix UI, Tailwind CSS, React Hook Form + Zod, AG Grid

07/2024 - Present | E2E Tester Nubisoft (Project: ID Berlin)

- Contributed to the ID Berlin project by developing and maintaining Cypress E2E tests. Improved E2E suite stability by refactoring to POM and reducing flaky tests. Approximately 600 test scripts have been written in the monorepo
- Conducted manual exploratory testing to identify edge cases and validate new features prior to automation
- Tech: Cypress, TypeScript, React, Visual Regression Tracker, Azure DevOps/Azure Pipelines (CI/CD)

04/2022 - 03/2025 | Frontend Developer Nubisoft (Project: DataGenie)

- Implemented Cypress E2E tests for data-processing views alongside frontend development work. Performed manual testing of chart visualisations and data flows before automation. Improved chart rendering performance and integrated with REST APIs.
- Tech: React, TypeScript/JavaScript, Redux, REST APIs, Cypress, CSS Modules, react-konva, Docker, GitLab CI/CD, Node.js

07/2021 - 04/2022 | Junior Frontend Developer Nubisoft (internal projects)

- Onboarding into the React/TypeScript ecosystem, supporting smaller frontend tasks and familiarising with team workflows and CI/CD tooling.
